Now through February 27th, 2009.

INSTALLATION NEWS

Faith Presbyterian Church in Quarryville, PA just took delivery on their newly installed lighting system. The system was designed to provide lighting primarily to improve their video recording capabilities. In addition, the church decided to add 4 Chroma-Q color scrollers which will allow them to expand their abilities to light their drama presentations. They also wanted to add texture to the back wall to bring life to the space. They are very pleased with the results. The systems is entirely outfitted with ETC lighting products.

THE FINAL STRETCH *The tracks to the White House*

As President Elect Obama, then, started his official journey into Washington D.C., PE was there to make sure he was heard. Philadelphia's 30th St. Station was the backdrop for one of his final speeches just days before being sworn in as the 44th President of the United States. With around 300 invited guests and every major media organization being represented, the stakes were high as it was televised live on every major news network across the country. Along with the entire Obama family, some of the other guests included Governor Ed Rendell and Senators Bob Casey and Arlen Specter. PE provided audio for the guests in the room as well as over 100 channels to the press.

NEW to the RENTAL DEPARTMENT

PE is always trying to add new products to its' rental and production departments. New to the lighting department this month is the ETC SmartFade ML. The SmartFade ML is the largest in the SmartFade line of consoles and has moving light capabilities. With 2 DMX outputs and an external monitor connection, it allows this small frame console to handle lots of channels and moving lights with ease. The SmartFade line has also been a hot seller. Its' small frame, flexibility and price point makes this console a great buy. For more information, check out www.etcconnect.com. For sales information and cost check out www.proexp.com.

Have a comment about the newsletter, website, or anything in general? Send us an e-mail at comments@proexp.com. We want to know. Don't forget that all of our rental pricing is available online at www.proexp.com as well as our online store and much, much more.
