## *SHURE REBATE EXTENSION*

Shure Incorporated has just announced that it will be extending its 700MHz Trade In - Trade Up program. The rebate has been extended to 12/31/09.

## *ART IN THE DARK*

Production Express will be providing lighting for an outdoor art show on the evening of May 16<sup>th</sup>. "Art in the Dark" is being hosted by Nicole S. Wahby and will feature art in various forms by artists such as Mark Billy, Tyler Yenna and Mike Giorgi among others. Donations of \$20 are suggested. The show will be from 7-10pm on the land of the Hummelstown Legion, 535 Walton Ave. Hummelstown, PA 17036.

Proceeds go to the Ronald McDonald House of Hershey. There will be light beverages, wine and hor'dourves. Live music will be provided by Ruby and the Hummingbirds. All of the artwork on display will be for sale. The event is rain or shine. Great gifts will be raffled off including Diamond Earrings courtesy of Jewels on Main in Hummelstown. Come out and enjoy a spring evening.

## *INSTALLATION FOLLOW UP*

PE recently completed the curtain installation at East Pennsboro High School. The Main curtain and Valance were the last pieces to go up. Dr. Linda Bigos, Superintendent of the East Pennsboro School District describes their old stage curtains as "...older than dirt. We estimate that it was about 1988 when they were last replaced." The decision to replace the curtains came from a study performed several years ago. Dr. Bigos explains, "The stage curtains were very old, thin and had been repaired over repairs. They certainly did not represent the importance that we are placing on the fine and performing arts and, I believe, sent a message to the students and to the community, that this area of our school was not important. Several years ago, we commissioned a feasibility study to learn about the condition of the auditorium and the projects that needed to take place in order to make the auditorium a "theatre" where all students and community would be proud to perform or to attend performances." When asked about how this and other projects like this are funded, Dr. Bigos described, "... through private and corporate donations. The East Pennsboro Education Foundation is the 501(c)(3) organization to which the donations are made. Additionally, the Foundation has established a theatre renovation fund to which a percentage of the Foundation's fund raising efforts are directed. We are thrilled with the results! Production Express was very helpful and I felt confident that the recommendations that I received were professional and cost-effective. The workmanship of the product is excellent and the installation was top-notch. I appreciate that any questions I had were addressed in a professional manner and that suggestions for maintaining the quality and the presence of the curtains were provided.

## *VIDEO PRODUCTS ADDED TO RENTAL INVENTORY*

Because of an increase in demand, PE has just added a video projector and screen to its arsenal of rental production equipment. The Panasonic PT-D5700U projector produces 6000 lumens of output power and includes a dual lamp system. We have also added a Da-Lite 10'6" x 14' screen w/ floor kit. This screen can be hung or flown as needed. Call for more information as well as pricing and availability. The projector and screen can be rented individually or a package price is available as well.
