## NEW CLIMBING SYSTEM - FLYING HIGH

Two variations of PE's new climbing system were used this past month. The full roof system was used for Gettysburg's Bike Week festivities and a front truss with sound wing set-up was used for the 720 Gathering in Chambersburg. Each set-up is quite different, yet both are easy to set-up. The crew at the 720 Gathering was quite happy when they saw how easy it went together and how quickly it went up. More pictures will be posted on our website soon.
